INTRODUCING THE
**COROLLA
CROSS**

**IT'S TIME
TO CROSS
BOUNDARIES**

INTRODUCTION

It's for those of us who want to do, to see, to achieve, to find and to create. It's for those with an unrelenting drive, desire and quest for the perfect moment, experience and adventure. It's for those who want to reach transcendence and who are on a journey - for those who are truly going places.

THE WORLD'S BEST-SELLING CAR, THAT IS TRUSTED AROUND THE GLOBE, IS NOW AVAILABLE IN AN SUV.

IT'S TIME TO CHANGE THE WAY YOU SEE DRIVING, IT'S TIME TO CHANGE THE WORLD – YOUR WORLD.

THE PERFECT CROSS BETWEEN BUSINESS AND PLEASURE,

OFF-ROAD AND ON-ROAD,

SPACE AND STYLING, COMFORT AND CONVENIENCE. WHETHER YOU'RE WANTING TO CROSS OFF YOUR TO-DO LIST OR YOUR BUCKET LIST, THE COROLLA CROSS IS HERE TO SERVICE YOUR EVERY NEED AND TAKE THINGS TO THE NEXT LEVEL.

Capable, innovative and spacious, the Corolla Cross is built on Toyota's New Global Architecture (TNGA) platform and is powered by a 1.8ℓ engine, which is also available with a hybrid electric motor. Sporting class-leading luggage space and an impressive ground clearance, it'll power your lifestyle to the next level so that you can cross boundaries.

With bold styling, and Toyota's renowned QDR (quality, durability, and reliability), the Corolla Cross empowers you to maximise life while enjoying peace of mind through Toyota's advanced Safety Sense* package of driver aids and emergency interventions.

*Available on selected models

RANGE

THE PERFECT CROSS BETWEEN

GETTING LOST AND FINDING YOURSELF

Whether you want the perfect cross between form and function, or you're looking for the perfect cross between going far and going fast - there's a Corolla Cross for you.

MODEL LINE-UP

The Corolla Cross is available in three specification grades: From mid to high, the **Xi**, **Xs** and **Xr** models each offer a comprehensive set of features. The Hybrid model is available in the **Xs** and **Xr** option. You can also Cross Boundaries in the, Gazoo Racing-inspired Corolla Cross GR-Sport or the Corolla Cross GR-Sport Hybrid.

THE COROLLA CROSS RANGE:

1.8 Xi CVT
1.8 Xs CVT
1.8 Xr CVT
1.8 Xs CVT Hybrid
1.8 Xr CVT Hybrid
1.8 CVT GR-Sport
1.8 Hybrid GR-Sport

MODEL SHOWN:

THE PERFECT CROSS BETWEEN

PERFORMANCE AND EFFICIENCY

WHETHER YOU WANT
THE PERFECT CROSS
BETWEEN THE MORNING
SCHOOL RUN AND THE
ROAD LESS TRAVELLED;
OR IF YOU WANT TO CROSS
BOUNDARIES BETWEEN
STYLE AND PERFORMANCE –
THE COROLLA CROSS IS
THE CAR FOR YOU.

The Corolla Cross is fitted with a powertrain configuration that crosses power with efficiency, and performance with responsibility. All models are front-wheel driven and are powered by a four-cylinder, fuel injection 1.8ℓ petrol engine that is seamlessly mated to a Continuously Variable Transmission (CVT).

THE 1.8ℓ ENGINE

PRODUCES MAXIMUM POWER OF

**103 KW @
6 400 R/MIN**

AND PEAK TORQUE OF

**172 NM @
4 000 R/MIN.**

Average fuel consumption is measured at 6.8ℓ/100 km and CO₂ emissions at 154 g/km CO₂.

And as the world leader in hybrid powertrain technology, Toyota is also offering the Corolla Cross in an ultra-economical petrol hybrid derivative.

In the hybrid models, power is recorded at 72 kW @ 5 200 r/min, with a combined system output of the hybrid and conventional motor peaking at 90 kW. Torque figures on the hybrid derivative are recorded at 142 Nm @ 3 600 r/min.

Because hybrid technology automatically manages the outputs of the petrol engine and electric motor to optimise its efficiency, this model achieves an average fuel consumption figure of just 4.3ℓ/100 km; and matching CO₂ emissions of a mere 98 g/km.

For complete driver control and passenger comfort, the Corolla Cross is equipped with MacPherson strut front suspension and a torsion beam at the rear for sure-footed handling and extra load-carrying ability.

PERFORMANCE

EXTERIOR

THE PERFECT CROSS BETWEEN LOOKING GOOD AND FEELING EVEN BETTER

WELCOME TO THE NEXT GENERATION OF COROLLA. THE COROLLA CROSS'S BRAND-NEW DESIGN FEATURES SLEEK LINES, WHILE STILL MAINTAINING THE ATHLETIC LOOKS SYNONYMOUS WITH AN SUV.

**THIS IS A VEHICLE
DESIGNED TO
EMBODY UTILITY
BEYOND YOUR
EXPECTATIONS.**

THE COROLLA CROSS IS THE PERFECT CROSS BETWEEN SPACE AND STYLING, WITHOUT COMPROMISING ON EITHER.

Modern, elegant and assertively styled, the front of the Corolla Cross features a distinctive black grille with granite grey* accents, flanked by striking LED* headlamps with Daytime Running Lights and an Auto High Beam* function. These sit above the front fog lamps* that are integrated into the front apron. Rear fog lamps are available on selected models, with the muscular black tones extending to the roof rails*. Viewed from the side, the Corolla Cross features noticeable fender flares, creating a sense of width, and complementing the sleek glasshouse and C-pillar trim. The alloy wheel design presents a strong but stylish appearance to complement its elevated ride height, made possible by the vehicle's 161 mm ground clearance.

The Xi and Xs models come with 17" alloys and the Xr models with striking 18" alloy wheels. The side mirrors are also auto-retractable on all models, colour-coded, electrically adjustable, and house the Blind Spot Monitor* warning indicator. Side and rear body cladding contribute to a powerful, rugged off-road appearance.

At the rear, large elliptical taillamps with trapezoidal detailing and crease lines provide a sleek and sophisticated look, flanking the rear door that has been designed for optimal ease of accessibility. The result is a vehicle that provides an uncompromised cross between form and functionality.

DISTINCTIVE LED* HEADLAMPS

18"* ALLOY WHEELS

TRAPEZOIDAL LED TAIL LIGHTS

INTERIOR, COMFORT AND CONVENIENCE

THE PERFECT CROSS BETWEEN

SPACE AND STYLING

FOR CROSSING OVER FROM WEEKDAYS TO WEEKENDS, AND HIGHWAYS TO GRAVEL ROADS.

When conceptualising the Corolla Cross, designers imagined how occupants would actually use the vehicle. Throughout the process of creating the vehicle, marginal improvements were made to ensure maximum cabin space, while intricate levels of design and planning went into the ergonomics of the vehicle for a superior level of comfort.

This resulted in a vehicle that 'just feels right'. Occupants are rewarded with a spacious cabin that offers enhanced visibility with a stylish yet highly ergonomic interior design.

Extraordinary levels of refinement are applied to every detail of the Corolla Cross, down to the stitching and interior finishes, to guarantee a quality feel and experience.

This extends further to the wide centre console that exudes a sense of simple sophistication, sporting easy-to-use switches. You'll also find convenient switches on the multifunction steering wheel, leaving the driver in complete

command of the audio system, Multi-Information Display, mobile phone operations, Voice Command*, Adaptive* Cruise Control and Lane Trace Assist*.

The touchscreen infotainment system in the Xs and Xr models can be linked to smart devices through Apple CarPlay or Android Auto. These apps mirror your phone on the vehicle's infotainment screen. It also features Bluetooth connectivity for wireless, handsfree cellphone and audio playing. Additionally, the screen doubles as the display for the Reverse Camera*.

The Xs and Xr models come with three USB ports and all models have a 12V power socket to charge your devices. And, when you use Toyota Connect via the MyToyota App, you can enjoy full internet access through in-car Wi-Fi, along with a host of other app-based tools.

Befitting of a sports utility vehicle, space throughout the vehicle is optimised for maximum comfort. The boot was specifically designed to be low enough for easy loading and offloading and measures a prodigious 440 litres in capacity.

The cabin has been designed for optimal space and comfort. From the arm rest with extended sliding range to the back of the front seats' concave-shape to increase rear passenger knee space, and the use of space-optimised roof lining, everything in the Corolla Cross has been constructed to create an interior with a relaxed feel and room to move.

Xr models are appointed with a choice of electrically operated seats covered in black or Terra Rosa partial leather, while the seats in the Xs models are trimmed in black partial leather. Xi models are furnished with durable and attractive cloth-covered seats.

The Corolla Cross is also equipped with Smart Entry, which allows occupants to enter or lock the vehicle without the key fob being removed from the driver's pocket. Thereafter, the engine is keylessly powered on or off by the vehicle's Push Start button.

No matter how hot - or cold - it is outside, occupants are kept at the perfect temperature by means of the automatic dual-zone* air conditioning, and all windows have a one-touch opening and closing function - for those who prefer the freshness of the outdoors. The driver also benefits from self-activating rain sensing* wipers and an electrochromatic* rear view mirror that automatically adjusts for anti-dazzle glare during night-time driving - offering the perfect cross between convenience and peace of mind.

SAFETY

THE PERFECT CROSS BETWEEN

SAFETY AND TECHNOLOGY

MODEL SHOWN:
COROLLA CROSS 1.8 Xr CVT HYBRID

THE COROLLA CROSS IS ALL ABOUT CROSSING BOUNDARIES AND TICKING THINGS OFF YOUR BUCKET LIST. TO SAVOUR THOSE UNFORGETTABLE MOMENTS WITH YOUR LOVED ONES,

AND STAY OUT OF HARM'S WAY,

the Corolla Cross features a range of driving and braking aids to prevent impact or reduce injuries.

For ultimate peace of mind, Xr models are equipped with Toyota's leading-edge Safety Sense suite of collision-avoiding interventions.

This is composed of:

ADAPTIVE CRUISE CONTROL*

Radars scan the road ahead and keep your vehicle at a pre-selected speed, automatically accelerating and decelerating with the traffic in front.

LANE KEEPING SYSTEM*

When lane deviation occurs, the driver is alerted with a buzzer, as well as a display on the Multi-Information Display. The system works in conjunction with the vehicle's brakes, which will automatically endeavour to arrest any further departure from the lane.

BLIND SPOT MONITOR (BSM) WITH REAR CROSS-TRAFFIC ALERT (RCTA)*

Sensors serve to warn the driver of unseen objects parallel to, or behind the vehicle during lane changing as well as when reversing into perpendicular flowing traffic.

A PRE-CRASH SYSTEM*

Sensors indicate rapidly approaching vehicles and other objects to the driver, after which safety systems such as emergency braking and safety belt bracing will automatically intervene to avoid or mitigate impact.

AUTOMATIC HIGH BEAM* (AHB) HEADLIGHTS

Detects oncoming traffic and dims the main beams when a vehicle approaches before switching them back on again when it is safe to do so.

COROLLA CROSS 1.8 Xr CVT HYBRID

FITTED AS STANDARD ARE:

ANTI-LOCK BRAKING SYSTEM (ABS)

ABS modulates excess brake pressure to allow for continued tyre rotation under extreme braking conditions (where excessive pressure would ordinarily lock the brakes and induce a skid).

ELECTRONIC BRAKE-FORCE DISTRIBUTION (EBD)

EBD is a further evolution of ABS that individually distributes braking force to each corner to allow for variances in weight distribution and tyre grip under braking to increase stability, stopping distance and vehicle control.

VEHICLE-STABILITY CONTROL (VSC)

VSC keeps the driver in control and maintains grip on slippery surfaces by individually applying braking to each tyre where necessary.

HILL-ASSIST CONTROL (HAC)

HAC prevents the vehicle from rolling back when pulling off from a sharp incline.

PARK DISTANCE CONTROL (PDC)

The Corolla Cross Xs and Xr models are equipped with both front* and rear* Park Distance Control (PDC) for effortless parking. Sensors located in the vehicle's bumpers constantly scan for nearby stationary objects. When a nearby object is detected, a buzzer sounds inside the cabin as well as its proximity being displayed on the infotainment screen display.

ISOFIX CHILD RESTRAINTS

Passenger safety for young occupants has also been considered with a child-lock function integrated into the rear doors, and two ISOFIX child restraint systems anchored on the rear seats. The front and rear seatbelts are equipped with force limiters and pretensioners to tighten and restrain occupants to reduce possible impact.

ANTI-THEFT SYSTEM

Taking peace of mind a step further, your Corolla Cross comes installed with advanced security technology that includes an anti-theft system, auto-door lock which automatically locks doors upon pull away at a certain speed, as well as an alarm, immobiliser and remote central locking.

AIRBAGS

To keep occupants safe in the event of a collision, the Corolla Cross is equipped with up to seven airbags, distributed as driver, front passenger, driver-knee, front side and curtain* airbags.

THE PERFECT CROSS BETWEEN PETROL AND ELECTRIC.

The two power sources seamlessly switch between petrol and electric to create incredible performance, responsiveness and efficiency. It's the perfect cross between power and economy and between performance and responsibility. It's the Corolla Cross Hybrid.

The self-charging Corolla Cross Hybrid harnesses more than 20 years of hi-tech innovation from the world leaders in hybrid technology – Toyota. The Hybrid system works by combining an electric motor with a petrol engine. Excess power from the engine charges the battery when it's running low, while the battery is also charged whenever you brake through regenerative braking. The electric motor and the petrol engine work together seamlessly, to always optimise your power source.

This means that you get more kilometres out of a single tank of petrol as well as being more environmentally friendly with less CO₂ emitted.

In the Hybrid models, power is recorded at 72 kW @ 5 200 r/min, with a combined system output of the hybrid and conventional motor peaking at 90 kW. Torque figures on the hybrid derivative are recorded at 142 Nm @ 3 600 r/min.

Because hybrid technology automatically manages the outputs of the petrol engine and electric motor to optimise its efficiency, this model achieves an average fuel consumption figure of just 4.3ℓ / 100 km, and matching emissions of a mere 98 g/km CO₂, reducing the impact on the environment.

IF YOU'RE LOOKING TO TRULY CROSS BOUNDARIES, **LOOK TO THE FUTURE.**
IT'S INNOVATIVE, IT'S COST-EFFECTIVE, AND IT'S POWERFUL.
IT'S THE COROLLA CROSS HYBRID.

GR-SPORT

GRSPORT
hybrid

BORN ON THE RACETRACK. BRED FOR THE STREET.

**FROM THE 24 HOURS OF
LE MANS TO THE DAKAR
RALLY CHAMPIONSHIP,
TOYOTA GAZOO RACING
HAS CONQUERED SOME
OF THE WORLD'S
TOUGHEST RACES.**

That is the legacy of Toyota Gazoo Racing, and it's that legacy that has inspired the styling of the Corolla Cross GR-Sport. Every time you get behind the wheel of the Corolla Cross GR-Sport, you'll own the street – and everybody will know it – thanks to its brutish Gazoo Racing motorsport-inspired presence.

The Corolla Cross GR-Sport celebrates Toyota's motorsport legacy through the fitment of an ultra-aggressive front grille, bold 18" black alloy wheels, a black roof, black mirror housings, black wheel arch mouldings and black side skirts.

Ensuring that its fortitude lives up to its attitude, the Corolla Cross GR-Sport is fitted with specially tuned Gazoo Racing suspension configured to deliver sharper steering, better handling, braking and more stability during extreme cornering.

The Corolla Cross GR-Sport is now also available in a hybrid variant, giving you the perfect cross between Gazoo Racing-inspired styling and Toyota's world-leading hybrid technology.

BADGING IS ALSO ADDED
IN KEY COCKPIT SPACES.

POWERING UP YOUR GAZOO RACING EXPERIENCE

is a GR Push Start button; and a gear selector clad in GR trim puts you in control, while GR-branded floor mats protect the foot wells and add to the attitude of the Corolla Cross GR-Sport.

TOYOTA ENVIRONMENTAL CHALLENGE 2050

At Toyota, creating technologically advanced vehicles isn't our only priority; we're committed to lowering our environmental impact throughout our entire production process. How? By setting ourselves six challenges that will see us reach a truly world-changing goal: a positive environmental impact by 2050.

ZERO CO₂

CHALLENGE 1

NEW VEHICLE ZERO CO₂ EMISSIONS CHALLENGE

By owning a Toyota you would be contributing to the reduction of vehicle CO₂ emissions by 90% in 2050 as opposed to 2010. You will help us promote the development of next-generation vehicles and further accelerate the spread of these vehicles.

ZERO CO₂

CHALLENGE 3

PLANT ZERO CO₂ EMISSIONS CHALLENGE

You uphold the two main pillars of our strategy to achieve zero CO₂ emissions at our plants which are:

1. Developing and introducing low-CO₂ technologies with ongoing kaizen.
2. Adopting renewable energy sources and utilizing hydrogen energy.

CHALLENGE 5

CHALLENGE OF ESTABLISHING A RECYCLING-BASED SOCIETY AND SYSTEMS

You have contributed to our 40 years on the challenge of resource recycling. Going forward, by rolling out to the world the technology and systems evolved in Japan, we will all continue working on the challenge of establishing a recycling-based society.

The message is clear – Toyota Motor Corporation (TMC) wholeheartedly supports the Paris Agreement and accepts the challenge to achieve carbon neutrality by 2050. The Paris Agreement is a legally-binding international treaty on climate change and is aimed at reducing the emission of gases that contribute to global warming. While this treaty was only adopted in 2015, Toyota has been innovating and investing in technology to reduce emissions and achieve carbon neutrality for well over 30 years. Toyota has also led the way with more electrified vehicles on the road than any other automaker.

THE TOYOTA COROLLA CROSS RANGE HAS BEEN MANUFACTURED TO MINIMISE ITS CARBON FOOTPRINT.

Guided by the goals of the Toyota Environmental Challenge 2050, as little impact as possible is made on the environment during each step of the process. From design to manufacturing, to end-of-life recycling programmes, our planet always comes first. This is because the ultimate long-term goal for Toyota is to make all our vehicles as environmentally friendly as possible. With this in mind, the entire Corolla Cross range has been designed to have very low CO₂ emissions.

ZERO CO₂

CHALLENGE 2

LIFE CYCLE ZERO CO₂ EMISSIONS CHALLENGE

You are lending a helping hand to Toyota's efforts to reduce to zero not only CO₂ emissions produced in travelling and manufacturing, but all CO₂ emissions including the process of materials production, disposal and recycling of vehicles.

CHALLENGE 4

CHALLENGE OF MINIMISING AND OPTIMISING WATER USAGE

In automobile manufacturing, we use water in painting, forging and other processes. Therefore, even a small reduction of its impact on the water environments is important. We have two measures to achieve this, comprehensive reduction of the amount of water used and comprehensive purification of the water and returning it to the earth.

CHALLENGE 6

CHALLENGE OF ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE

Here at Toyota we have engaged in planting trees at our plants and environmental conservation activities in our surrounding areas. To establish a society where humans and nature coexist in harmony, we are promoting several activities to connect regions, the world and the future.

TOYOTA IS SERIOUS ABOUT COMBATING THE PROBLEMS ASSOCIATED WITH WASTE TYRES IN THE COUNTRY AND HAS THEREFORE TAKEN UP ITS PRODUCER RESPONSIBILITY AS DEFINED BY THE WASTE MANAGEMENT ACT OF 2008. WASTE TYRE REGISTRATION NUMBER: TPREG0031GAU

IN-CAR WI-FI, ROADSIDE ASSISTANCE AND MUCH MORE

All Toyota vehicles can now be connected to the MyToyota App on your mobile phone, giving you more control of your driving experience and opening up a whole new world of personalised offerings and customisable features, so that you can enjoy:

Toyota vehicles are known for their Quality, Durability and Reliability. Keeping your Toyota Genuine means no compromises in terms of safety, performance and resale value. The range of Genuine Products and Approved Services will ensure complete peace of mind throughout the ownership journey and beyond. For more information on how to Keep Your Toyota Genuine visit www.toyota.co.za/genuine

TOYOTA GENUINE PRODUCTS

For guaranteed fit and function, **Genuine Parts** are essential in maintaining the safety and reliability of your vehicle. They also comply with all safety, regulatory and environmental requirements, making it the obvious choice. The same exacting precision applies to **Toyota Accessories**, developed by engineers with extensive knowledge on vehicle integration - you can enhance the appeal and functionality of your Corolla Cross without compromising its safety features or warranty. Warranties are about peace of mind, and the **Genuine Unlimited Warranty** is designed to provide superior cover (up to 10 years, unlimited mileage) and a seamless claims process thanks to full integration with Toyota systems. The **Genuine Extended Service Plan** also enjoys exclusive approval by Toyota SA and provides flexible extension options up to 10 years or 300 000 km to suit your period of ownership. Paying today's rates for tomorrow's maintenance is a sensible way to protect the resale value of your Corolla Cross by means of a full service history.

TOYOTA APPROVED SERVICES

Specialised vehicle maintenance requires first-class facilities, advanced equipment and expert knowledge. **Toyota Quality Service and Value Service** not only promise accurate diagnosis and repair, but also a philosophy of building trust through a genuine concern for the needs of our customers. To complement the extensive network of Toyota dealers, we have a vast number of **Accredited Body and Paint Repairers**, selected on stringent criteria to ensure outstanding workmanship and customer service. You can maintain your vehicle's pristine condition without compromising its warranty thanks to the exclusive use of Genuine Parts by our Accredited Repairers. Offering 24-hour access to a full complement of assistance and recovery benefits, **Toyota Roadside Assistance** provides the peace of mind that competent support is only a phone call away.

TOYOTA GENUINE MEANS

✓ UNCOMPROMISED SAFETY ✓ GUARANTEED QUALITY ✓ PEACE OF MIND

TOYOTA FINANCIAL SERVICES

There is no 'one-size-fits-all' when it comes to vehicle finance and insurance, there is only you. With fast, flexible and convenient services we will structure the perfect Toyota Corolla Cross deal for you.

At Toyota Financial Services, we believe that purchasing your Toyota should be as enjoyable as driving it. Toyota Financial Services is the fast, flexible and convenient means of financing your Toyota Corolla Cross. We have created a range of finance products that suit both private and business customers, easily accessible through your local Toyota dealer. We take the hassle out of arranging finance.

Toyota Financial Services (South Africa) Ltd is an authorised Financial Services (FSP No. 7454) and Registered Credit Provider (NCRCP62).
